## For Immediate Release

### Leader Instruments Waveforms & Vectorscope Selected for Channel 28 in Mexico City

Mexico City, Mexico; May 25<sup>th</sup>, 2007. Leader Instruments, manufacturer of the most reliable, practical and cost effective electronic instruments available now, has been selected by Channel 28 in Mexico City, as the supplier of Waveforms, Vectorscope and Rasterizer units for their new facilities.

Channel 28 in Mexico City has selected Leader products for their new facilities. Engineer Gustavo Cruz Lerin was responsible for the decision favoring Leader Instruments because of its excellent quality, reliability and warranty.

This project was promoted and completed throughout by the authorized Leader distributor for Mexico, Teletec S.A. de C.V.

Authorized Leader Dealer in Mexico:
